Professional Summary

AI & ML undergraduate with experience developing machine learning applications, AI-powered systems, and web-based solutions. Strong foundation in Python, data structures, and software development, with a keen interest in building real-world applications.

Work Experience

Intern May 2026 – Jun 2026
Defence Research and Development Laboratory (DRDL) Hyderabad, India

- Developed a Retrieval-Augmented Generation platform using LangChain, ChromaDB, FastAPI, Ollama, and Docker for document-based question answering.
- Improved retrieval quality through context-aware chunking and MMR search, achieving **0.972 Answer Relevancy** and **0.933 Context Recall** on RAGAS benchmarks.

AI/ML Intern Aug 2024
Swecha Hyderabad, India

- Developed features for **Telugu-Sathi**, a privacy-focused Telugu chatbot built with **Gemma2-9B**, **Ollama**, **Streamlit**, and the **indic-transliteration** library.
- Implemented Roman-to-Telugu transliteration and conversation pipelines to enhance accessibility and deliver natural Telugu-language responses.

Projects

Career Profile Alignment Platform Febuary 2026

- Skills:** LangGraph, FastAPI, PostgreSQL, Next.js
- Built a multi-agent career intelligence platform for job description analysis, skill matching, and document generation, achieving **98.2% parsing accuracy**, **94.5% automated error recovery**, and **0.2% hallucination rate**.

Hospitality Booking Analytics Platform December 2025

- Skills:** LightGBM, MLflow, Docker, Jenkins,GCP
- Developed and deployed an end-to-end MLOps pipeline for hotel booking cancellation prediction, achieving **88.41% F1-score** and **90.32% recall** with automated CI/CD and model lifecycle management.

Automated Code Review Agent May 2025

- Skills:** LangGraph, LangChain, Ollama, Bandit, Radon.
- Developed a multi-agent code analysis platform that automates security, performance, and maintainability reviews through static analysis and LLM-driven reasoning workflows.

AniMatch October 2024

- Skills:** TensorFlow, Comet ML, Docker, Jenkins, Kubernetes.
- Engineered a hybrid recommendation system using Neural Collaborative Filtering and Content-Based Filtering with a production-grade MLOps stack for reproducible training, deployment, and monitoring.

Education

Institute of Aeronautical Engineering

B.Tech in Computer Science and Engineering (AI & ML)
Aug 2023 – Aug 2027 (expected)

Hyderabad, India.
CGPA: 8.29 (Till VI. Sem)

Achievements

- 3rd Place at GDG TechSprint.
- Runner-Up at Bower AI Hackathon (48-Hour Hackathon).

Skills

- Languages:** Python, Java, JavaScript, SQL
- Frontend:** HTML, CSS, JavaScript, React, Next.js
- Backend:** FastAPI, Flask, REST APIs, MongoDB, PostgreSQL, Docker, JWT Authentication, Pydantic
- AI/ML & Agentic AI:** LangGraph, LangChain, CrewAI, RAG, Tensor-Flow, PyTorch
- Tools & Cloud:** Git, Docker, Jenkins, MLflow, GCP

Certifications

- Generative AI Professional
 - Oracle
- Agentic AI
 - Hugging Face
- Data Structures and Algorithms
 - NPTEL
- Machine Learning
 - NPTEL

Coding Profiles

- LeetCode
- GeeksforGeeks
